16 \*\*\*: What was the government and civilization like in Atlantis?

17

18 C: In the beginning when the migrations first began to the  
19 continent, the form of government or rule was not the same as it was  
20 in the end. Basically, when the Sons of Light moved to the  
21 continent, they set up a communal situation and the normal structure  
22 for the situation was to have one that could channel, shall we say,  
23 or was more attuned and then you would have twelve underneath the one  
24 and underneath each of the twelve then would be the branches or the  
25 extension. Now that was the situation in the communal life style.  
26 As we said before, some of the Sons of Darkness migrated along with  
27 the Sons of Light and they were usually on the very, shall we say,  
28 outskirts of the situation. Of course, there were some that would not  
29 come near the communal situation. But there was a mingling of the  
30 Sons of Darkness and the Sons of Light in that group that extended  
31 from the twelve, and as we said before, the Sons of Light developed  
32 the spiritual aspects of the civilization, the cultural aspects of  
33 the civilization. They brought the standards to the land. Of  
34 course, as time progresses then and more and more begin to occupy the  
35 continent, you developed then into a firmer division in the  
36 civilization or in the people that had migrated to Atlantis.  
37 Naturally, the Sons of Darkness collected very solidly together and  
38 those that skirted, shall we say, the communal situation, the Sons of  
39 Light, kind of, shall we say, teetered back and forth between the

40 Sons of Darkness and the Sons of Light. As the groups developed and  
41 grew stronger, as they multiplied, then you see the Sons of Darkness  
42 growing much stronger than the Sons of Light. They became the, shall  
43 we say, workers of the material realm, and in so doing they produced  
44 in excess of what they needed, regardless of what it was.

45 Immediately they had arms for protection where the Sons of Light did  
46 not bother with such things; they moved to the land in peace and so  
47 they found the land peaceful. But the Sons of Darkness did not.

48 They did not come to the land in peace so they did not find it  
49 peaceful. As time progresses then, the Sons of Darkness set up a  
50 system of government that is similar to present day monarchs. Of  
51 course, in their strength they overpowered the small communities of  
52 the Sons of Light and, shall we say, occupied them. Oh, they were  
53 allowed to exist, but they were watched very carefully. They  
54 automatically took the position, the Sons of Light, as the priests of  
55 their religious belief systems at that time and as the civilization  
56 grew, as the population grew, the Sons of Darkness then infiltrated  
57 the priesthood, infiltrated the temples and thus they became  
58 corrupted and brought about a greater control than by the Sons of  
59 Darkness of the masses. By having control of the worshipping system  
60 or the temple, they could feed to the masses whatever they wished.  
61 Although the Sons of Light were permitted to be figureheads, shall we  
62 say, they were manipulated in such ways so that they actually had no  
63 control of the situation and consequently then they began to isolate  
64 themselves as far as their spiritual beliefs.

65 In the makeup of the governing of the land, it was automatically,  
66 shall we say, divided. As this segment moved in here and as that  
67 segment moved in there they became what you could refer to as  
68 colonies or states or dominions and each having its ruler. The  
69 motivating principle in the development of this rule was the Sons of  
70 Light. They would have gatherings or meetings on a regular basis in  
71 which they would discuss what was necessary for the maintenance of a  
72 good spiritual life and a good healthy physical body and so the Sons  
73 of Darkness weaved into this same structure their control. Later on,  
74 of course, they developed a central king. From time to time during

75 the reigning powers one individual would inherit the throne of a  
76 dominion and that individual would not be classified truly as a Son of  
77 Darkness. That individual was basically a good person. The  
78 difference between that individual and the true Sons of Light and the  
79 true Sons of Darkness was that although the individual was basically  
80 godly, the individual did not really consciously understand his  
81 rightful position. So one could not say that such an individual was  
82 either a Son of Darkness or a Son of Light. It would be wisest then  
83 to consider that type of individual a good child of God, a good human  
84 being and so through all the time that Atlantis existed, from its  
85 very beginning to when it climbed to its peak it had a number of  
86 rulers that would be beneficial to mankind and a number of rulers  
87 that would be detrimental to mankind. Each dominion then was  
88 subdivided so that those who had favor of the ruling king would be  
89 appointed to those subdivisions and thus the rule was passed then  
90 from the monarch on down to those he chose to represent him. As far  
91 as civilization goes, there was very little division amongst the  
92 people in the very beginning. They were more or less blended  
93 together without social divisions but as the land began to prosper,  
94 as society began to develop, then we begin to see distinct classes of  
95 people. Also, as the Sons of Darkness came to the new continent they  
96 brought with them much of their needs and that was a subservient  
97 class that through Mu and Lemuria they had created. As they gained  
98 control then of Atlantis, this subservient class was increased, and as  
99 they gained control then and they developed the class system, those  
100 at the very bottom were intermingled with the subservient class.  
101 Now, the subservient class was that which they had created that one  
102 might consider semi-developed animals. Those creatures that were  
103 neither true human nor true animal, but they were more or less, shall  
104 we say, monstrosities. They were animals that had been developed to  
105 mimic man. Thus one would not consider them true animal nor true  
106 man.

107

108 \*\*\*: Could you give us a little example of what some of these  
109 animals might have looked like?

110

111 C: In the very earliest times of Mu and Lemuria, many of them were  
112 almost half-man and half-animal. In other words, that which you  
113 consider the centaur would actually have been an animal created for  
114 the satisfaction of the sexual desires of those in Mu and Lemuria,  
115 you see. By the time Atlantis came around, such animals then as that  
116 had been more or less done away with. Oh yes, there were a few of  
117 that type here or there, but basically they were, shall we say, a  
118 very rare breed. In Atlantis they created animals that were more  
119 human looking than animal and could function almost as adequately  
120 as a human being. But, of course, they were animal and were without  
121 soul.

122

123 \*\*\*: How did they do this?

124

125 C: To give some idea of how such things were accomplished, we would  
126 have to go back to the very beginning when there existed the ability  
127 with each individual, each being, to manipulate through the soul  
128 power, through the processes of the mind. In other words, the gifts  
129 of the soul or gifts of the spirit, would work through the  
130 process of the mind and in the very beginning then such games as  
131 controlling the development of the animals through the mental  
132 activities, actually through the soul activity, that would be  
133 funneled then through the mental activities of the semi-solid being  
134 or man. As these activities increased then the semi-solid being or  
135 man began to, shall we say, solidify to a greater degree. Now, this  
136 gives you a better understanding of the description we gave you of the  
137 beginning time, man's proper function and man's improper function in  
138 the physical plane. At that time then man was able to produce things  
139 simply through the mind. As he began to become more gross, then it  
140 was necessary to function this production or productive facet through  
141 grosser extensions of the mind, thus the need for mechanical devices  
142 came about. Do you understand this?

143

144 \*\*\*: Yes.

145

146 C: We hope you do. Very well. This is basically how, shall we say,  
147 the technology of Mu developed. So it was the mental expression that  
148 created the gadgetries needed and through all this experimentation,  
149 all this time, they actually developed for this purpose very advanced  
150 systems for tinkering or playing with nature. When the mental  
151 faculties became too gross so that the spiritual faculties could no  
152 longer manifest properly, then before that avenue was shut down they  
153 began to develop tools of their trade. Consequently, they ended with  
154 advanced laboratories for playing with creation.

155

156 \*\*\*: Is this in reference to cloning?

157

158 C: Well, cloning is quite crude, but given enough time and you will  
159 have your Atlantis recur in its highest corrupt state.

160

161 \*\*\*: I really don't understand about the mechanics of that but it  
162 seems like a dangerous question to ask to me.

163

164 C: If you think we are going to give you the process by which it was  
165 done, do not be so foolish. You will have it soon enough. Very well.  
166 When the spiritual faculties could no longer function as readily  
167 through the mind power and as the physical body became grosser and  
168 grosser, then the last effort of the ego was to develop laboratories  
169 and instrumentation by which this could be done similar to your  
170 cloning process now, but, as we said, the process that you have at  
171 the present time is very crude. You are still in the caveman days.  
172 Now, these creations of man became their responsibility under Divine  
173 Law and any abuse of these creations then man became charged with so  
174 he begins to build up karmas that would normally not have existed had  
175 he moved to some other avenue of play and self-glorification. These  
176 laboratories of creation then were once again re-established in  
177 Atlantis, but by this time they had lost their, shall we say, polish.  
178 As the abilities of the soul diminish, so do the abilities of the  
179 mind diminish so that by that time there had been enough grossness

180 instilled into the whole situation where the creation of a  
181 subservient class was quite crude. Then they began to feel that they  
182 could turn these animals in more nearly perfect human beings so that  
183 for warring purposes they could be better controlled because these  
184 subservient creations could not always be depended on; they had to be  
185 watched and watched very carefully since basically they were animal  
186 and although they had been bred for habit purposes, they still had  
187 not perfected an animal that could be completely trained. Many of  
188 the subservient animals were bred to look more human than animal and  
189 again these were sold to the highest bidder for the satisfaction of  
190 personal desires. Those that were, shall we say, less human looking  
191 were sold to the buyers for work purposes. Eventually, the lower  
192 class people then became intermingled with these creations so that  
193 there was a definite blending or merging, that in time it was hard to  
194 tell which was which.

195

196 \*\*\*: Did these creations have any kind of feelings or emotions, if  
197 they didn't have a soul?

198

199 C: Feelings and emotions as YOU understand them that are given life  
200 by the fact that you have a soul or you are a spirit, no, but  
201 nevertheless, they did have feelings, they did have emotions but not  
202 of the same quality as what you have. They experienced pain; they  
203 experienced affection; they could give affection; and they could give  
204 pain. These were creatures brought into existence by man, not by  
205 God, consequently, they were man's charge, they were man's  
206 responsibility, and man eventually had to answer for such abnormal  
207 creations. In some do-good efforts there had been established  
208 laboratories or temples or whatever you wish to call them, whereby  
209 these animals could be more completely turned into human beings by  
210 raising the conscious factor of that animal so as to make it more  
211 human, more spiritual. In other words, it was man's feeble attempt  
212 at delivering a soul to these animals, and there was, shall we say, a  
213 very firm effort put forth. The other, shall we say, extreme, was  
214 that in the time of Mu and Lemuria as the Sons of Darkness reached

215 their ultimate power, they began to take true creations of God, true  
216 beings, and create animals out of them. At first through the mental  
217 processes in the very beginning they were able to, shall we say,  
218 clone a human being into half-human and half-animal. Now, not clone  
219 in the normal sense as you have mentioned it, but they attempted to  
220 genetically change that being so that upon its birth it was no longer  
221 completely human but was part animal physically and so they developed  
222 then a strain of beings such as these, and those were very definitely  
223 incorporated in these animal beings and so you had a mass then of  
224 beings that were similar in appearance yet half, shall we say, were  
225 true animal and half were true human beings, true Children of God.  
226 Now, this half real human and half animal became the karmic debt of  
227 those who created them and so as they passed on then and returned,  
228 they returned into those very creatures that they had created. And so  
229 then again in Lemuria and in Atlantis, efforts were set forth to  
230 correct such situations. Eventually there was enough correction made  
231 so that such karmic situations no longer exist today. Unfortunately,  
232 it would appear to all of you that possibly such a situation would  
233 develop again. One statement to that. Never will it reach the  
234 degree that it did before. By that time.... Well, we have given you  
235 enough.

236 \*\*\*: When you are saying that spirit, man, solidified into the  
237 physical form. Did this take place at Mu or into what is Mu?

238

239 C: Yes, yes, (\*\*\*)

240

241 \*\*\*: Anybody have any more questions about that?

242

243 \*\*\*: I did wonder how the first ruler was chosen?

244

245 C: In the Sons of Light there is a progression, shall we say, a  
246 moving or a giving of position from one to another. In twelve  
247 individuals one will naturally stand out, not by, shall we say,  
248 necessarily the outward actions, but sometimes by the inner actions,  
249 and so with the Sons of Light, all leaders, if you wish to term them

250 that, were chosen by the others. It was a line of succession.

251

252 \*\*\*: Thank you.

253

254 C: In the Sons of Darkness, in the very beginning it was who had the  
255 greater strength and as, shall we say, one family was established and  
256 their strength was situated, then it went to the heirs. There were a  
257 number of leaders in Atlantis who were absolutely Sons of Light, now  
258 we are making reference to the entire continent of Atlantis. So you  
259 see as Atlantis established itself as a civilization and as a  
260 continent they had eventually one ruler over all. There were a  
261 number of subdivisions, but in those times when one of the Sons of  
262 Light had been the ruler of all of Atlantis, their life style had  
263 undergone changes in that the thrust for material things would be set  
264 aside and there would be a tremendous quest for spiritual things and  
265 through this process then we had somewhat of a balancing situation so  
266 that the Atlanteans did not move out and conquer the rest of the  
267 world. Instead they would move out and try their hand at, shall we  
268 say, helping the rest of the world, colonizing and raising the  
269 standards of the rest.
