

The Love Aspect of the Infinite Father

You see, maybe an explanation of the physical Jesus Christ and the spiritual Jesus Christ is in need here. What truly transpires in an entity when he enters in under the Christian belief system? What happens then is that he makes himself available through the Love of God the opportunity to truly become part of the New Covenant that God has given to all His Creation. Doing away with the old and taking on the New. One must consider the acceptance of Jesus Christ. If one could understand that a Being All-Mighty, All-Powerful, and All-Knowing is capable of having many expressions of Himself that are of equal quality and have their own purpose, then one would begin to, shall we say, understand the Love of the Divine and Infinite Father.

The man Jesus and the Messiah or the Chosen One, the Christos, the Christ, is one of the manifestations of the Divine Father. If one would look at the quality and the quantity of love that the Divine Father has from this respect then possibly one would have a greater understanding and acceptance of the Divinity of Jesus Christ. To create, first there must be love and to create all that man can see should indicate to him that there is an All-Encompassing Love. A Love that is so great that it is totally united with all its own Being. In the Divine and Infinite Father's Love for what He created out of love, He would not, because of this great Love, allow any opportunity to go by whereby He would not help His Creations, thus the Divine in His total Love giving us free will so that we may be more like Him, allowed us then to do as we pleased. When we fell away from His Love, when we turned our back on Him, His Love was not diminished in any way, shape or form but manifested itself then through promises of the Old Covenant, that He in His Love and out of His Love and out of the creative force which is His Love would extend Himself again to us in the very realm which we chose to exist. So when this Love took form and shape it became the man Jesus and the consciousness Christ indicating the Anointed One, the creative All-Powerful force of Love. So that we or, shall we say, you would not have to undergo anymore of the sufferings of the physical and the silliness that you bring to yourself through your own self-centeredness, this creative Love came into the physical to leave a connecting link, shall we say, between the physical and the Godhead. This Love, this Consciousness that manifested in Jesus permeates every living thing in the Universe, and man in accepting the Love of the Divine Father can tap into this Consciousness into this Love that the Father has left here in His Son Jesus Christ and flow from this physical edge across the deep ravine to the top of the mountain. It is the source that will pick you up and carry you across the treacherous ravine, the pit of darkness. To deny the Divinity of Jesus Christ is to deny the Love of God and to deny the Love of God, you deny yourself your own godliness. Each and every one of you are truly sons of God, if you choose, but to be a son of God you must be obedient to the Will of God. And to be obedient to the Will of God you then must accept His Love and His Love was made most assuredly manifest in the physical in the form of Jesus Christ. To deny that Divinity is to deny the Love of God, and that is being disobedient, thus you are not sons of God. Only the true sons of God can inherit the Kingdom of Heaven. Only the true sons of God can have the Kingdom of Heaven here in the physical. And the true sons accept the total Love of the Divine Father thus accepting that Love made manifest in the physical form in the physical plane in the name of Jesus Christ, the Only-Begotten Son of the Divine and Infinite Father, God. To think any the less is to deny yourself your godliness and your opportunity to be god-like. No existence can reach perfection unless it first accepts the complete Love of the Infinite Father.

All the silliness that man has created in all the other steps of development were never intended to be. Man's own egotism and self-centeredness and his quest for physical aggrandizement has developed these areas and that is why now they are beginning to crumble. That is why now those who are entrapped in those levels of, shall we say, "mastership" as you all call them are fleeing in desperation. But, unfortunately, not all will be able to make a re-entrance in time. Search out any master save the Lord Jesus Christ, and you search out your own loss of life, eternal life.
